

R.E and Collective Worship:

- **Pentecost** – We will discuss the way we live our lives, the way we treat other and how, by our actions, show if we have an attitude of service.
- **Reconciliation** – Children will develop an understanding of the Sacrament of Reconciliation is a celebration of God's love and mercy; it is about the forgiveness of sin and being reconciled with God and one another.
- **Multi-Faith Week** – The children will gain a better understanding of other faiths including Judaism and Islam.

Maths:

Decimals – we will be learning how to add and subtract decimals.

Perimeter and area – Children will be learning how to work of the perimeter and area of different shapes.

Statistics – Children will learn how to draw and read line graphs. They will also learn how to read tables of data.

Shape – We will learn how to measure, calculate and draw angles accurately.

Position and direction – We will learn how to read and plot co-ordinates and explore lines of symmetry.

Negative Numbers – We will learn how to compare and order negative numbers.

Converting units and measurement – We will learn how to convert units of measurement **as well as estimating and comparing volume.**

D.T / Art In this unit the children will learn about fashion designer Yves Saint Laurent and will study work from a variety of fashion designers from the era to see the different styles and techniques adopted. Children will research and plan work using their sketchbooks and use ideas to create an artistic design for a 1960's outfit.

Music: "Heio"

We will explore songs with different time signatures and use musical symbols from Western Musical notation.

Science:

- **Forces:** Pupils will be given the opportunity to identify the effects of air resistance, (by investigating the best parachute to slow a person down), water resistance (by creating and racing streamlined boats) and friction (by investigating brakes). They will recognise that some mechanisms allow a smaller force to have a greater effect by exploring and designing a simple mechanism.

Year 5 Summer Term Overview Mrs Shepherd

History / Geography

- **Geography** – Climate Change. During this unit, children learn about how changing patterns of weather at different locations around the world are impacting on the lives of real people.
- **Geography** – Local Geography Week – The opportunity to learn all about our local area whilst developing a variety of field working skills.

PSHE: -Being My Best

-Growing and changing

P.E: Striking and fielding
and Athletics.

English:

Fiction:

- Portal Story - We will write a narrative about a portal that leads you to a magical world.
- The Game – We will write our own narratives based on Jumanji.

Non-Fiction:

- Discussion – Should we try to stop climate change? Children will use their knowledge from their recent Geography topic to discuss this topic in depth.
- Formal Complaint Letter – we will learn how to keep a complaint letter formal but also persuasive.

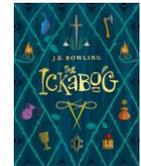

Reading:

- We will be focusing inference and deduction as a means to understand the hidden meanings behind words. We will also discuss the writer's intentions.

MFL - French

- Out of the world – learning the names of planets.
- Going to the Sea Side – children will write descriptive sentences about the seaside.

Class Novel:

Computing: Digital Literacy:

- **Touch Typing:** Children have develop the ability to touch type the home, bottom, and top rows. Children will learn to use two hands to type the letters on the keyboard.
- **Word Processing:** Children will practice word processing on Word and Purple Mash. They will also use PowerPoint to show our learning over the year in a chosen subject.
